

# Ibrahim naseer

UX|UI DESIGNER

## Work Experience

### UX|UI Designer project

**Qirat Ventures**

april 2023- jun 2023

- Qirat Ventures' website, called Skyloom, stands as a testament to my expertise as a UI/UX designer. I spearheaded the design and development, crafting a responsive website with an exceptional user experience. This project marked my successful debut in the UI/UX design realm, setting the stage for my continued passion and dedication to delivering outstanding digital solutions

### 2 UX|UI Designer project

**The Funded Trader**

Jan 2023 - Dec 23

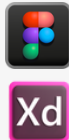

- Among the top-rated prop firms, TFT holds a prominent position, and I had the opportunity to create a design app for them. Although the project is currently on hold as they deemed no immediate need, the app design I crafted remains poised for future implementation if needed. Its user-friendly interface promises to streamline processes, providing TFT with an efficient tool whenever the time is right. My dedication to creating seamless user experiences will undoubtedly leave a positive impact on TFT's operations

## About me

I am a skilled Full Stack Developer, but my true passion lies in designing captivating websites. Upon discovering this passion, I wholeheartedly immersed myself in honing my design skills. Driven by my unwavering love for creating stunning visuals, I am determined to transition into becoming a UI/UX Developer. My relentless dedication to the art of design will undoubtedly fuel my success in this exciting new journey.
